INDUSTRIAL MODELS

PL-D SERIES

Satisfy your most demanding imaging application requirements with our wide range of high performance industrial cameras and custom OEM imaging solutions.

- » Available in 1.3 to 15.0 MP resolutions
- » High resolution
- » Low noise images
- » Fast frame rates
- » Software Development Kit

AVAILABLE INTERFACES

Additional FireWire, USB 3.0, USB 2.0 and GigE camera models are available on pixelink.com

USB 3.0

USB 2.0

GigE

FireWire

Autofocus Liquid Lens Cameras

FEATURES

- » One push-autofocus, move focus from one point to another at high speed
- » Seamless integration of a compact, low-power durable liquid lens
- » Get a sharp image from a few centimeters to infinity in less than 20 ms
- » Get started quickly by integrating your autofocus application with the Pixelink SDK

ADVANTAGES

- » Large range of optical variation
- » Sturdiness - tested for over 100 million cycles and shows zero performance degradation
- » Shock resistance - excellent response before and after shock tests
- » High-speed - reconfigure in tens of milliseconds
- » Low power consumption - lens dissipates about 15mW; ten times lower than other systems

Software Development Kit (SDK)

Providing full control of all camera functions, the Pixelink SDK is the software package of choice for developers and system integrators

FEATURES

- » Fast and easy integration
- » Free technical support
- » Powerful, easy to use interface
- » Get started with a free 30 day trial
- » Compatible with Microsoft Windows and Linux

PIXELINK CAPTURE SOFTWARE

Powerful multi-camera image capture software

Pixelink Capture is a real-time, interactive, multi-camera software application compatible with all Pixelink cameras. With a built-in autofocus feature, Pixelink Capture offers tremendous flexibility and power allowing the ability to configure and test multi-camera vision applications.

The multi-window environment includes a preview window, a configuration window, and a real-time graphical histogram. Users have the ability to adjust image size, color and exposure interactively through an easy-to-use control interface prior to image or video clip capture. The camera begins streaming at the point the application is launched.

Four Camera Layout

Important Features

- Real-time video streaming
- Built-in autofocus application
- Resizable region of interest (ROI)
- Customizable multi-camera layout
- Image and video capture
- Trigger and GPO controls
- Supports Windows 7 and above

Integrated Lens Control of Focus and Zoom

Enhanced Functionality

- Integrated lens control of zoom and focus for Navitar motorized lenses
- Accurate autofocus option for Navitar fine focus mechanisms
- Advanced measurement tools for on screen measurement of length, area and pixel location

LENS AND CAMERA SOLUTIONS

Optical technologies from Navitar and Pixelink
create an unbeatable imaging solution

Seamlessly Integrated

We've simplified the lens and camera selection process by pairing proven high-speed USB 3.0 Pixelink® industrial camera models with Navitar® high magnification imaging lens systems to meet the needs of your most demanding machine vision application.

The Resolv4K, 12X Zoom and Zoom 6000 lens systems seamlessly integrate with Pixelink CMOS cameras giving you high-resolution, low-noise digital imaging solutions backed by industry leading sales and technical support.
