

February 29, 2019

Dear Customer,

Navitar recently implemented an export compliance policy indicating company-wide commitment to all United States export policies and controls outlined in the Export Administration Act and Export Administration Regulations.

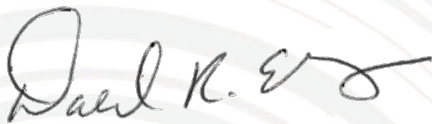

Our compliance statement requires all customers, who purchase Navitar product(s) and ship those product(s) to locations outside the United States, must have an executed Export Control Compliance form on file with Navitar.

Please carefully review and complete the attached Export Control Compliance form indicating your understanding and acceptance of Navitar's export policy. Should you have any questions prior to signing the document, please reach out to your Account Manager.

The fillable PDF file may be completed electronically, or you may print and complete manually. We request the completed form be returned to Navitar via email at export@navitar.com prior to March 29, 2019.

The Export Control Compliance document is valid for two (2) years from the date of signature. Thank you in advance for your cooperation.

With best regards,

Donald Ehinger
VP International Sales
